

EnsDb.Hsapiens.v79

July 9, 2025

EnsDb.Hsapiens.v79	<i>Ensembl based annotation package</i>
--------------------	---

Description

This package loads an SQL connection to a database containing annotations from Ensembl. For examples and help on functions see the help pages from the `ensembladb` package!

Note

This data package was made from resources at Ensembl on Thu May 18 12:42:51 2017 and based on the 79

Author(s)

Johannes Rainer

Examples

```
## load the library
##library(EnsDb.Hsapiens.v79)
## list the contents that are loaded into memory
ls('package:EnsDb.Hsapiens.v79')
## show the db object that is loaded by calling it's name
EnsDb.Hsapiens.v79

## for more examples see the ensembladb package.
```
