

# Package ‘prompter’

July 1, 2025

**Type** Package

**Title** Add Tooltips in 'Shiny' Apps with 'Hint.css'

**Version** 1.2.1

**Description** In 'Shiny' apps, it is sometimes useful to store information on a particular item in a tooltip. 'Prompter' allows you to easily create such tooltips, using 'Hint.css'.

**License** MIT + file LICENSE

**Encoding** UTF-8

**Imports** shiny

**Suggests** htmltools, spelling, testthat

**RoxygenNote** 7.1.2

**URL** <https://prompter.etiennebacher.com>,  
<https://github.com/etiennebacher/prompter>

**BugReports** <https://github.com/etiennebacher/prompter/issues>

**Language** en-US

**NeedsCompilation** no

**Author** Etienne Bacher [aut, cre, cph]

**Maintainer** Etienne Bacher <etienne.bacher@protonmail.com>

**Repository** CRAN

**Date/Publication** 2025-07-01 08:50:02 UTC

**add\_prompt***Add a tooltip for a specific element***Description**

Add a tooltip for a specific element

**Usage**

```
add_prompt(
  ui_element,
  position = "bottom",
  message = NULL,
  type = NULL,
  size = NULL,
  permanent = FALSE,
  rounded = FALSE,
  animate = TRUE,
  bounce = FALSE,
  arrow = TRUE,
  shadow = TRUE
)
```

**Arguments**

<code>ui_element</code>	Element on which a tooltip will be added.
<code>position</code>	Position of the tooltip. Can be ‘bottom’, ‘bottom-left’, ‘bottom-right’, ‘left’, ‘right’, ‘top’, ‘top-left’, ‘top-right’. Default is ‘bottom’.
<code>message</code>	Message to include in the tooltip. This argument is mandatory.
<code>type</code>	Type of the tooltip. Can be ‘NULL’ (default), ‘error’, ‘warning’, ‘info’, ‘success’.
<code>size</code>	Size of the tooltip. Can be ‘NULL’ (default), ‘small’, ‘medium’, ‘large’.
<code>permanent</code>	Boolean indicating whether the tooltip should be visible permanently (or at the contrary only when hovering the element). Default is ‘FALSE’.
<code>rounded</code>	Boolean indicating whether the corners of the tooltip should be rounded. Default is ‘FALSE’.
<code>animate</code>	Boolean indicating whether there is a small animation when the tooltip appears. Default is ‘TRUE’.
<code>bounce</code>	Boolean indicating whether there is a small bouncing animation when the tooltip appears. Default is ‘FALSE’.
<code>arrow</code>	Boolean indicating whether there is an arrow on the tooltip. Default is ‘TRUE’.
<code>shadow</code>	Boolean indicating whether there should be a shadow effect. Default is ‘TRUE’.

**Value**

A tooltip when hovering the element concerned.

**Examples**

```
if (interactive()) {  
  library(shiny)  
  
  ui <- fluidPage(  
  
    use_prompt(),  
  
    add_prompt(  
      tableOutput("table"),  
      position = "bottom", type = "warning",  
      message = "this is a table", permanent = FALSE,  
      rounded = TRUE, animate = FALSE  
    )  
  
    # also works with magrittr's pipe  
    # tableOutput("table") %>%  
    #   add_prompt(  
    #     position = "bottom", type = "warning",  
    #     message = "this is a button", permanent = FALSE,  
    #     rounded = TRUE, animate = FALSE  
    #   )  
  )  
  
  server <- function(input, output, session) {  
  
    output$table <- renderTable(head(mtcars))  
  
  }  
  
  shinyApp(ui, server)  
}
```

---

use\_prompt

*Load hint.css dependencies*

---

**Description**

Load hint.css dependencies

**Usage**

```
use_prompt()
```

**Value**

Include dependencies of Hint.css
